Building Bridges for
Sustainable Development and
Creating an enabling
environment for coexistence
among young people of the
world

BACKGROUND

“Together for a Better World” Summer Workcamp is an international Youth Development Programme initiated by Better World Cameroon NGO to raise awareness of young people around the world, educate and mobilise the public for world wide social inclusion, understanding and peace. This Better World International Summer Workcamp is co-organized by NICE Japan and Solidarités Jeunesses France.

OBJECTIVES

1. Ongoing Pan African and international Solidarity, Coordination, networking, youth cultural exchange, learning and Sustainable Development mechanization are actively supported and coordinated.
2. International support to Development Education and strengthening of civil society and youth associations is increased and translated into concrete strategies and policies.
3. A Pan African multi sector and cross broader framework on quality assessment for global education is developed.
4. Young peoples skills and knowledge on development and cultural values are improved and increased all over the world. Values and frames: new ways to engage the public with African values and Ethics.
5. Provides opportunities for local authorities to participate in global Development Education.

TRAINING WORKSHOPS

Capacity building is one of the main activities within the Together for a Better world project.

Capacity building activities aim at supporting national youth platforms on development education in raising awareness, educating and mobilizing the international community for poverty eradication and climate change mitigation and adaptation.
