

## Report of e-classroom, between Better World Cameroon and Basic Education Foundation

*Our mission is to provide a diverse community of underprivileged children and unemployed youth with the opportunity to transform themselves through intercultural education and grow up as 21<sup>st</sup> century citizens who are able to effect change in their communities and the world environment.*

The class started at 12pm with introductions of pupils and teachers. Names of pupils were taken to create their e mails. Better World Cameroon (BWC) coordinator introduced the organization and the special education e-learning program and said it will help children to become 21<sup>st</sup> Century Pupils who can use ICTs to improve their lives and learn about the global environmental and other cultures.

The first lesson consisted of learning how to use a key board.

Better World will use the internet to connect the children with the outside world.

Through e-mails children will be able to have e-pals (electronic friends) to exchange knowledge and improve learning.

Teachers/Children will be computer literate

Environmental/Cross-cultural education will be taught using the internet.

Children will learn how to use the computer and the internet for research.

Teachers will be able to use technology in the classroom

Schools will be connected to each other using the Internet. Are more detailed curriculum is being drawn up with the help of Enable Support Foundation (ESF) USA.

The following children were present:

NAME	AGE	CLASS	LANGUAGE
TEBO FAVOUR	9	5	ANGLOPHONE
BEBETTA MARY	9	5	ANGLOPHONE
